

**IMPACT** is an experiential workplace education program offered by Wheelchair Sports Victoria.

**The program increases employees understanding of what it's like to live with disability.**

# IMPACT

## OUR EXPERIENCE

Wheelchair Sports Victoria was established in 1962 and is the leading provider of sport and recreation opportunities for Victorians with disability. We have been using sport and recreation as a medium to educate the community about disability issues for more than 10 years through our WheelTalk Program. **IMPACT** has been developed from the success of the WheelTalk Program which reaches 20,000 young Victorians in schools, tertiary institutions and community groups each year.

## IMPACT IN YOUR WORKPLACE

**IMPACT** is a unique tool to compliment the implementation of operational and strategic goals, and can be used:

- As part of your induction programs
- To launch workplace OH&S, diversity or equal opportunity policies
- For professional development for staff communicating with people with disability
- As an inclusive team building activity
- To improve understanding of disability and importance of leading a healthy lifestyle

**IMPACT** presenters share their personal story of disability with employees, describing how their accident, birth condition or illness has impacted their life. As an experiential workplace education program, employees are encouraged to participate in a game of wheelchair basketball or other activities as time and space permits. At the end of the program employees will be inspired, have a greater understanding of the impact of disability, and encouraged to act on safety issues and to lead a healthy, physically active lifestyle.

## BOOK NOW

**IMPACT** can be tailored to suit space and time constraints and can be delivered off-site or at your workplace. For further information or to book an **IMPACT** session at your workplace please contact Adriana Tantau on **9473 0133** or email [impact@wsv.org.au](mailto:impact@wsv.org.au)
